

# Who Are We ? HISTORY + MISSION

As more than 60 children are taken from their homes and placed in foster care each month, over 2,000 foster children in Central Florida rely on child welfare agencies to meet their basic needs. In a system with a very standardized approach for children in foster care, Foundation for Foster Children (FFC) is unique in Central Florida by creating meaningful connections through personalized support.

For 15 years, FFC has provided the education, enrichment, and mentoring services that foster children need for their success. Whether teaching a young child how to read, mentoring a young adult, or simply being a stable presence in a child's life, FFC has equipped foster children with the tools and resources that will lead to successful and healthy lives as adults. FFC truly believes that the foster children it serves are the leaders of tomorrow.
